Remarks

The following remarks are responsive to the Advisory Action, dated February 24, 2005, in the above referenced pending application.

The Examiner indicates that the proposed amendments will not be entered because they raise new issues that would require further consideration and/or search, in that "the newly added limitation, that of an organic electronic device requires further search/consideration." Applicants respectfully disagree with the Examiner's conclusion in view of the fact that the amendment to Claim 1 is identical to and merely incorporates the limitations of cancelled Claim 3, and the amendment to Claim 9 incorporates only the limitations of cancelled Claim 11. All subject matter was previously examined and rejected over Liu. No new matter has been introduced. Applicants submit that the remarks filed January 31, 2005 are responsive to the Action dated January 11, 2005, and that the amendment should be entered and the remarks of January 31, 2005, considered.

In sum, Applicants respectfully request that the proposed amendments be entered for consideration in the pending application, the remarks of record considered and the application allowed. In the alternative, the amendments should be entered and if found not allowable, Applicants' request a Final rejection.

Respectfully submitted,
